GOV. SIMON E. BALDWIN

Arrives in Town on His Way to Visit State College at Storrs.

Willimantic people who chanced to be at the Union station Thursday afternoon upon the arrival of the 3 o'clock train from Hartford saw Governor Simon E. Baldwin for a few moments, as he stopped off unaccompanied, and was met by President C. L. Nease of the Connecticut Agricultural College. The governor is to be the president's guest until this (Friday) afternoon at the college, and he was immediately taken to Storrs in an automobile.

Governor Baldwin's chief reason for visiting the college at this time is to personally get acquainted with the work and activities of the college and faculty, and to see how the college is getting on. The governor is to be the president's guest until this (Friday) afternoon at the college, and he was immediately taken to Storrs in an automobile.

The board of trustees will hold a meeting today (Friday) at the college, and the governor is to attend. The governor is to be the president's guest until this (Friday) afternoon at the college, and he was immediately taken to Storrs in an automobile.

Thursday evening an informal reception was held at Grove cottage in the governor's honor. The same was attended by members of the faculty and their wives, some fifty in all. No program for the evening was arranged. President and Mrs. Nease received the guests and presented them to the college. A few musical selections were rendered during the course of the evening and refreshments were served.

Governor Baldwin expects to spend the greater portion of today in looking over the college buildings and the spacious grounds. The student body escorted him to a reception, to which the governor responded with a few brief remarks.

POOR GAS

Excites ire of Local Merchants Who Want a Speedy Change.

Willimantic business men are dissatisfied with the quality of gas being furnished by the Willimantic Gas and Electric Light company in this city, and this was shown Wednesday night at the meeting of the Business Men's association in the Board of Trade rooms. The meeting was called for the purpose of discussing the quality of the gas, which was put out into the pipes without having been purified. The gas in his store had been so bad that he had been obliged to use electricity a good share of the time, yet while his electric light bill had gone up his gas bill was about the same. He had investigated, and found that a mistake of nearly 100 per cent had been made in the reading.

The statement was made by some of the members present that the gas being furnished was not even a good quality of cooking gas, and that although the public is paying for a good quality, the illuminating gas, which is sold at a lower price, is of a much poorer quality.

President Brick spoke of the fact that he had been told the company paid no purifier, and that a very poor quality of coal was used in the making of the gas, which was put out into the pipes without having been purified. The gas in his store had been so bad that he had been obliged to use electricity a good share of the time, yet while his electric light bill had gone up his gas bill was about the same. He had investigated, and found that a mistake of nearly 100 per cent had been made in the reading.

Dr. F. E. Johnson of Mansfield Depot had a puppy which was known to have been with the dog before it was killed, and the doctor has killed his dog to avoid any chance of it developing the rabies.

Mr. Huntington also learned that the mad dog was at Scotland Station on Monday 17 from 9 in the morning until night, and therefore it could not have been at Clark's Corner on that date, where Mr. Oliver thought he saw it. But it might have been there on January 18, as on the morning of the 18th it was at North Windham and had a fit in that place and snapped at Mr. Stevens but luckily did not bite him. The animal also grabbed hold of a child's finger at Scotland Station, but did not bite hard enough to break the skin. Mr. Huntington has been unable to find any further trace of the animal.

Five Years of Severe Rheumatism. The cure of Henry J. Goldstein, 14 Barton Street, Boston, Mass., is another victory by Hood's Sarsaparilla. This great medicine has succeeded in many cases where others have utterly failed. Mr. Goldstein says: "I suffered from rheumatism five years, it kept me from business and caused excruciating pain. My knees would become as stiff as steel. I tried many medicines without relief. Hood's Sarsaparilla, soon felt much better, and now consider myself entirely cured. I recommend Hood's Sarsaparilla to all who suffer from rheumatism or other blood diseases. It is a sure cure in liquid form or chocolate tablets called Sarsaparils."

the of the meter in his store. After he had complained to the company that it had been rectified, and his bill was only 50 cents, against about \$17 before. Others spoke of the same condition of affairs, and mentioned the poor opinion of Willimantic that outsiders received on this account.

W. C. Norris spoke of the fact that he had been told we were paying about \$10 more per street light than any other city of our size in New England, and that the price paid reduced to a per capita price made us paying the highest price for street lights in the New England states. After considerable discussion it was directed to authorize the secretary of the association, Mr. C. R. Afford, to write to General Manager Alexander J. Campbell of the company in the name of the association, and complain of the conditions there. It was also felt that though there were many complaints being made daily at the local office, that perhaps the president of the company did not know of them and would make better arrangements if the matter was called to his attention by a reason why we needed a public utility bill, rather than a claim of commerce bill.

It was decided to engage Thomas J. Kelley to represent the association at the hearing before the legislature on the public utility bill Thursday afternoon, with special reference to the electric light and gas conditions in this town, citing these as a reason why we needed a public utility bill, rather than a claim of commerce bill.

Chimney Fire. At 9 o'clock Thursday Assistant Engineer Thomas E. Foley responded to a still alarm for a chimney fire in a house in the Stone Row. There was considerable excitement among the many families residing in the tenement house for a few moments. The blaze was extinguished with the contents of two fire extinguishers with but a small amount of damage resulting.

No Quorum. The meeting of the board of governors of the Nipinet canoe club that was to have been held last evening in Dr. H. E. Tilling's office was postponed, owing to the fact that a quorum was not present.

Attachment Released. The attachment on the funds of the Sons of Israel that was placed Monday by Constable William J. Hastings in favor of Morris Kantowitz has been released, a settlement having been effected by the payment of \$10, or otherwise, owing to the plaintiff by Mr. Kantowitz.

To Address Teachers. Principal Perry E. Burrill of the Willimantic normal school is to speak at a teachers' meeting to be held in West Sumfield next Tuesday. Principal Burrill will take as his subject Education.

Ether L. Merriam of Athol, Mass., formerly of this city, is the guest of relatives in town for a few days.

Investigating Mad Dog Scare. Dog Warder Herbert O. Huntington of Mansfield expects to receive an order soon from the commissioner of domestic animals ordering all dogs in the vicinity of Mansfield and Eastville in Eastville and Mansfield Depot muzzled.

Mr. Huntington has been looking into the case of a dog which was bitten by the stray animal, which was found to have been suffering from the rabies, but that most of the dog owners in Eastville and that vicinity have chained up their dogs to await development.

Dr. F. E. Johnson of Mansfield Depot had a puppy which was known to have been with the dog before it was killed, and the doctor has killed his dog to avoid any chance of it developing the rabies.

Mr. Huntington also learned that the mad dog was at Scotland Station on Monday 17 from 9 in the morning until night, and therefore it could not have been at Clark's Corner on that date, where Mr. Oliver thought he saw it. But it might have been there on January 18, as on the morning of the 18th it was at North Windham and had a fit in that place and snapped at Mr. Stevens but luckily did not bite him. Resolutions Affect Bar Library. The members of the Windham County Bar association are interested in a resolution recently introduced in the legislature by Senator Hammond of Putnam, which makes it compulsory upon the county commissioners to expend annually a sum of \$300 towards the Bar library. Windham and Tolland counties are the only counties in the state where the support of the Bar library is left to the discretion of the commissioners. In all others it is compulsory. The Bar library in Windham county has not been kept up to date, and it is earnestly hoped that the resolution will soon become a law, as there is no reason why Windham county should not have an up-to-date and as useful a Bar library as any other county.
